## REPEAT

## LINE & COUPLES VARIATIONS CHOREOGRAPHED BY JOHN WALTON

This underlying rhythm of the music for this music is a fast samba; the dance lends itself to a variety of variations, some of which can incorporate the samba style of dancing. Samba rhythm consists of a series of "medium, short, long" beats. The following text uses the convention of showing these short beats as "a" beats. They always correspond to short steps.

## VARIATION 1: LINE DANCE WITH SAMBA WALKS

Instead of the hip bump sequence during the last 6 counts of the dance, try a "progressive samba walk". You can add any degree of Latin body styling as you wish.

- 25 Left foot forward

- 26 Pivot ½ turn to your right (weight ends on right)
- 27 Smallish step forward on left with half weight (bend both knees slightly)
- a Bounce up slightly and drag right foot back very slightly
- 28 Drag left foot back slightly
- 29a30 Repeat above on opposite feet
- 31a32 Repeat 27a28 (end with full weight over left)

## **VARIATION 2: LINE DANCE FOR COUPLES**

Except for the last 8 counts, this is the original line dance with a sweetheart hold, and the man just changing sides (and arms) with the turns. The objective of the last 8 counts is to get the man back on the lady's left side, ready to start the next wall. The method shown here is three over the head turns (no cheating!). Start in sweetheart position with the man to the left of the lady and slightly back
